

COURSE DESCRIPTION

Title of the course: Digitalization of HR Processes @ Multinational Company

The goal of the course

Our world is moving into digital direction and many business organizations started the transformation of their way of work years ago. This transformation of processes includes HR processes as well.

During this course we will learn more about digitalization of HR with focusing on multinational environment. We will think together about advantages and disadvantages of this change. Can all HR processes be digitalized? How digital transformation of HR effects employee engagement? How it will change the future role of HR?

This course will be a work-shop class, where attendee's proactivity will be necessary.
